SKILLS

Frontend: TypeScript, React JS, Next JS, Redux Toolkit, Tailwind CSS

Backend: Node JS, Express JS, SQL, MongoDB, Firebase

Work Experience

MobiMind, Lebanon | VAS Support Engineer | 05/2023 - Present

- Provided technical support for value-added services via Skype and Outlook, troubleshooting and resolving issues efficiently.
- Collaborated with developers and account managers to identify and address service-related issues.
- Assisted in the testing and deployment of new services.
- Tools: SQL Server Management, Postman.

Projects (charbel-ayrouth.vercel.app)

The 961 Clone ([link](#))

- Recreated 'The 961' news website using Next.js 14 and Tailwind CSS. Utilized newsapi.org to fetch real-time news articles for enhanced user experience.
- Implemented metadata for improved SEO and enhanced social media sharing capabilities.
- Technologies: Next.js, Tailwind CSS, NewsAPI

Proshop ([link](#))

- Developed a full-stack MERN application serving as an ecommerce platform. Implemented a comprehensive shopping cart and integrated Stripe for seamless payments.
- Technologies: React, Redux Toolkit, Stripe, Node.js, Express, MongoDB

FYP Proposal Management System ([link](#))

- Built a proposal management system using the MERN stack to streamline the Final Year Project proposal process. Included user role management and efficient communication tools for enhanced collaboration among stakeholders.
- Technologies: React, Redux Toolkit, Tailwind CSS, Node.js, Express, MongoDB
